

teamfixx®

better team performance faster

better team performance faster

You would like to improve your team's performance?

No problem with **teamfixx**!

Increasing time pressure has become common reality. There is little time available when it comes to working on difficult situations.

The question is whether changes are possible with very little time available?

The **teamfixx** answer is:

“Yes, it is possible!”

The teamfixx promise

If your team is in a difficult situation **teamfixx** can get it back to working in only 3 hours.

The participants agree on further actions for dealing with their difficult situation. Those can be verified objectively.

teamfixx turns the feeling of helplessness and paralysis into motivating self-efficacy and confidence.

Difficult situations are dealt with easier. **teamfixx** can also be applied preventively and leads to even better team results.

What is teamfixx?

teamfixx is a method to address complex and difficult situations. Within a short amount of time it can provide clarity on the next steps.

teamfixx combines

- decades of practical experience in accompanying and developing teams and
- scientific findings of researching mediative and collective competences.

What teams say about teamfixx

„... would never have thought that we would get to any results so quickly...“

„... finally my opinion was heard as well...“

„... unfortunately there wasn't enough time to resolve the relationship level ...“

„...very effective and simple method which we can apply ourselves...“

Who is teamfixx suited for?

teamfixx is suitable for teams who are interested in growing their effective and result oriented actions.

Typical cases:

- A newly put together team is supposed to deliver strong results.
- A team is facing a stressful change situation.
- Open or latent conflicts prevent a team from performing well.
- A team is no longer working smoothly.

It doesn't matter how complex and tricky a situation might be - we always guarantee an impact through **teamfixx: The team will definitely be able to work again.**

Preconditions for the success with teamfixx

There are three basic requirements:

- Consistency of assignment by both manager and team
- Transparent expectations of the manager with regard to the result
- The team's willingness to be led through the process

Suitable for international use

teamfixx is available in German, English, Spanish, French, Czech, Italian and Dutch.

Our approach

We start with a phone call. Then you receive an offer in writing which describes three steps:

- 1. Clarification of assignment** (1.5 hours)
The framework conditions required for **teamfixx** are discussed and fixed with the client.
- 2. Implementation** (3 hours)
The team is led through the very structured **teamfixx** process. At the end the team have agreed on actions for their everyday work.
- 3. Efficacy evaluation** (1.5 hours)
After 2 to 3 months time the efficacy of the points agreed with **teamfixx** is evaluated by all parties involved. .

teamfixx costs

We charge costs based on your requirements. We would be pleased to provide you with a personal quote.
